Subject: HathiTrust Emergency Temporary Access

Colleagues,

I am pleased to announce a bit of bright news: the University of Illinois is now a participant in the HathiTrust Emergency Temporary Access Service (ETAS).

The ETAS will provide University students, faculty and staff with online reading access to print materials that are currently unavailable to our users. It is being offered while the COVID-19 pandemic is limiting access to the print collection. By offering this service, HathiTrust is helping us to continue to support teaching and research during the stay-at-home order.

Through the ETAS, our faculty, staff, and students now have reading access to 46.65% of our print collection (based on overlap data generated by HathiTrust staff from the most recent catalog update we supplied to them). Specifically, the service provides the ability to electronically access and use in-copyright works from our print collection, where HathiTrust holds an electronic copy of the work. One concurrent digital checkout is allowed for each print copy.

Here are a few things to keep in mind with the service:

- Students, faculty, and staff may log in to HathiTrust and view all volumes that HathiTrust has verified as being held in our print collection, even if in copyright.
- Users can read and search the book online, but they will not be able to download the book in full.
- Single page downloads are available.
- For each copy of a work in our collection, one simultaneous checkout will be allowed.
- All Library users continue to have access to more than 6.7 million public domain and Creative Commons-licensed works in HathiTrust, including the ability to download full text of those works.

To access the works in the ETAS, users will need to search directly on the HathiTrust website. The following steps are recommended:

- Login directly to the HathiTrust using their University of Illinois credentials.
- Search for the work in the Hathi Catalog.
- If a relevant item is found, it will display a “Temporary access” link (see attached screenshot).

- Check out the work using the yellow banner at the top of the page. Please note that the initial checkout period is 60 minutes and the checkout will automatically renew as long as the session is active and the user is active within the work.

Access to this work is provided through the [Emergency Temporary Access Service](#).

You can **search in this text** to see if it contains what you are looking for.

Information about use can be found in the [HathiTrust Access and Use Policy](#).

We are very pleased to offer this service, which is available only to HathiTrust member libraries. More documentation for users of the service is available at <https://www.hathitrust.org/ETAS-User-Information>, but please contact me if I can supply additional details or answer questions.
