Library Faculty/Staff

To support fulfillment of limited library requested printed material and needs for library faculty/staff to enter and perform limited work in library facilities, we have set out sanitation stations. These stations have limited PPE for your use, which include wipes, gloves, and masks. Note that masks are recommended, but not required, so please use your best judgement if needing a mask. Stations are currently located at entrances into the Main Library, UGL, and Grainger; please notify an AUL if you need PPE at any other Library location.

Thank you,  
The Continuity of Instruction Working Group
