

Hi everyone,

For this installment of Alma Tips, we wanted to concentrate on working with Host Bibliographic Records in Alma. We have had many questions about what these records are and why these types of records come up when searching for other specific titles in Alma. We have recorded a short information session on working with Host Bibliographic Records in Alma and the Zoom recording can be viewed at: <https://uofi.app.box.com/s/rq1qo5zp2wii1powxff0axw2w39hxfh7>

Host Bibliographic Records are wrapper records that link multiple bibliographic records to a single associated Holding Recording. Examples of these Host Bibliographic Records include:

- 1) **Bound withs** that have multiple titles bound together into one volume with a single Holding Record and a single Item Record
- 2) **Analyzed Monographic Series** linked to series title record and also the individual monographic series volume record
- 3) **Serials Titles Continued as Different Name** but linked to the same Holding Record

To see the related records associated with the Host Bibliographic record (see screenshot below for the example MMSID: 99745915512205899), click on the 1) Expand All button, 2) Other Details, and 3) Related Records

And, then after clicking on the Related Records link, a complete list of all individual titles (records) associated with the Host Bibliographic Record are displayed in Alma and one can navigate to the individual title:

The screenshot displays the Alma Repository Search interface. The search results are filtered to show records related to a specific host bibliographic record. The interface includes a search bar at the top, a left-hand navigation pane with facets, and a main content area listing search results. Each result includes a checkbox, a title, a description, and various metadata fields such as MMS ID and Record number. The results are sorted by rank.

Facets:
